

The Beauty Beneath

Dermalogica Facials

A Dermalogica facial is so much more than a great way to relax. Your Dermalogica consultant will use Face Mapping to analyse your skins needs, and help you to understand the most effective way to maintain a healthy, glowing complexion.

Face Mapping divides the face into 14 distinct zones. Using the Zones as a guide the therapist is able to conduct an in depth analysis guaranteeing that the subsequent facial treatment will fully address each client's specific concerns including premature ageing, pigmentation and sun damage, acne, dryness and dark circles.
